Genthemen—I have had one of your American Turbine Water Wheels running for five months. I am well pleased with it. It runs strong and steady; and should I want another wheel new. I would give it the preference over any other wheel that I know of. I have one of Leffel's Springfield wheels running in my other building.

Truly yours,

WESTFIELD, N. Y., Nov. 6th, 1865. Mesers. Stout, Mills of Temple.—Genta—Last August we took out one of Bartholomew's scroll shute water wheels, and put in its place one of year twenty-five inch American Turbine Wheels, and it performs to our entire satisfaction, driving the machinery of our Lock works with about one-half the water of the old one, and we would not exchange it for any wheel with which we are acquainted. TOWNSEND MANUFACTURING CO. Dr. F. B. BREWER. Prest. DR. F. B. BREWER, Prest., E. M. Mix, Supt.

Mesers. Stout, Mills & Temple.—Gents—We are using three of your American Turbine Water Wheels, which we have put in our Mill within the last eighteen months.—We consider them as being the best wheels in use. We can grind out forty barrels of flour per day to each wheel with five foot head and fall, which is four times the quantity we could make with any ordinary wheel. As for strength we have tested them thoroughly, having had them stopped several times by hard pieces of wood getting in them, but never breaking them in the least. In conclusion we will say that they fully fill the bill as represented to us before purchasing.

Yours truly,
